

B.SC IT SEM 4
SUBJECT :403
ASSIGNMENT 2
Submission Date :13/03/2024

Create an application for the Toys Shop Management system that has the following tables.

1.TOYS(TOY_ID number PK auto-increment, TOY_NAME varchar2, DESCRIPTION varchar2 , AGE_CODE Number, IMAGE_PATH varchar2, STOCK Number, PRICE_PER_ITEM number)

2.AGE_CATEGORY (AGE_CODE number PK,YEARS varchar2)

3.BILLS(BILL_ID number PK auto-increment, CUSTOMER varchar2, TOY_ID number FK references TOYS, QUANTITY number, DISCOUNT number, TOTAL_AMOUNT number, DATE date).

Create a dashboard with a menu bar with menus for Add/Update/Delete TOYS, Add/Update/Delete AGE_CATEGORY, Generate BILLS and show the following reports.

1. Show sales of last week.
2. Show details of the toys having stock less than 10.
3. Find out the Hero Product of last month.

Notes: Make a professional desktop application.

Save images inside the "Debug/Images" folder.
